Phone (484) 507-9940	

Authorized amount as outlined below. Please scroll down and click on approve or deny.

Good Afternoon Nichole, This is an update to inform you that we received your request to provide the injured worker with the below DME. The attached quote is for the add on swing away arm to their existing lift. PLEASE NOTE: They will have to remove the scooter seat to not over exceed max lift capacity, in order for the lift with the swing away arm to accomodate the weight of the scooter. Leaving the seat on is a violation of the weight capacity and will void all warranties and could cause the unit to fail. (The seat weighs approx 28 lbs.) There is not alot of options in the market to accommodate the weight of their scooter with the seat on and have the option of a swing away arm with their vehicle. This is the only option with current lift. Please confirm pricing authorization needed below:

Authorization ID	HCPC	Description	Needed By	Qty	Cost
001-00721089471	E1399	Swing Away Arm & Installation	11/08/2022	1	\$1,957.50
			Causality Rating: % WC Related		

This estimate is good for sixty (60) days and is subject to change. Services authorized beyond this timeframe may require that the pricing be revisited and verified. The fees submitted herein do not include any unforeseen

circumstances that may arise during treatment. Upon any cancellation or withdrawal after this authorization, payer will be responsible for any fees incurred and will be billed accordingly. These fees, once approved, are not subject to bill review or fee schedule reduction.

Please indicate below whether this is approved or denied. If you have any questions regarding this quote, please call 1-800-553-2155 and press option 6
